Amendment under 37 C.F.R. § 1.114(c)
U.S. Application No. 09/783,333

REMARKS

Claims 1-10 are all the claims pending in the application.

By the present Amendment, Applicant amends claim 1 to recite forming a predetermined layer protocol by adding a header to multimedia data which is transmitted through a radio link protocol (RLP) layer; and adding an error detection code for detecting an error in the header information and a corruption indication flag for indicating corruption of the data on a lower multiplex-protocol data unit (MUX-PDU) layer than the RLP layer, to the header of the predetermined layer protocol. Applicant submits that the prior art fails to teach or suggest all of these features of the claim.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,
